## **Real Submanifolds in Complex Space and Their Mappings**

Real Submanifolds in **Complex Space** and Their Mappings M. SALAH BAOUENDI PETER EBENFELT LINDA PREISS ROTHSCHILD DOWNLOAD **READ ONLINE** 

| #4342509 in Books | Princeton University Press | 1998-12-28 | Original language: English | PDF # 1 | 9.21 x .94 x 6.14l, 1.64 | File type: PDF | 416 pages | | File size: 71.Mb

**By M. Salah Baouendi, Peter Ebenfelt, Linda Preiss Rothschild : Real Submanifolds in Complex Space and Their Mappings** a primer on mapping class groups benson farb and dan margalit princeton university press princeton

By M. Salah Baouendi, Peter Ebenfelt, Linda Preiss Rothschild ePub | \*DOC | audiobook | ebooks | Download PDF and oxford in the mathematical field of algebraic topology the homotopy groups of spheres describe how spheres of various dimensions can wrap around each other Real Submanifolds in Complex Space and Their Mappings:

3 of 3 review helpful Excellent reference book for researchers in CR geometry By A Customer The book presents an excellent discussions on some of the most active research fields in the subject of several complex variables It includes a fairly complete list of references and an accurate account of the historical backgrounds of the materials This book presents many of the main developments of the past two decades in the study of real submanifolds in complex space providing crucial background material for researchers and advanced graduate students The techniques in this area borrow from real and complex analysis and partial differential equations as well as from differential algebraic and analytical geometry In turn these latter areas have been enriched over the years by the study of problems in sev About the Author M Salah Baouendi and Linda Preiss Rothschild are Professors of Mathematics at the University of California San Diego Peter Ebenfelt is Associate Professor of Mathematics at the Royal Institute of Technology Stockholm Sw
