By Mikhail Gromov : Metric Structures for Riemannian and Non-Riemannian Spaces (Modern Birkhäuser Classics) download and read metric structures for riemannian and non riemannian spaces modern birkhuser classics metric structures for riemannian ukix35userix35 metric structures for metric structures for riemannian and non riemannian spaces pierre pansu; translated by bates sm series title modern birkhuser classics Metric Structures for Riemannian and Non-Riemannian Spaces (Modern Birkhäuser Classics):

2 of 4 review helpful Great but By Narada The french version written by Pierre Pansu based on Gromov s lectures is a jewel which gives a perfect introduction to the subject not too much detail a lot of insight etc The new parts chapter 3 5 Semmes supplement really unbalance the book though if you think of them as Volume 2 the changes might be palatable 26 of 28 review helpful This book is an English translation of the famous Green Book by Lafontaine and Pansu 1979 It has been enriched and expanded with new material to reflect recent progress Additionally four appendices by Gromov on Levy s inequality by Pansu on quasiconvex domains by Katz on systoles of Riemannian manifolds and by Semmes overiewing analysis on metric spaces with measures as well as an extensive bibliography and index round out this unique and beautiful book From the reviews The book gives genius insight into the connections between topology and Riemannian geometry geometry and probability geometry and analysis respectively The huge variety of progressive key ideas could provide numerous research problems i
