**By V.I. Arnold, A.N. Varchenko, S.M. Gusein-Zade : Singularities of Differentiable Maps: Volume II Monodromy and Asymptotic Integrals (Monographs in Mathematics) (Vol 2)** Singularities of Differentiable Maps: Volume II Monodromy and Asymptotic Integrals (Monographs in Mathematics) (Vol 2):

The present volume is the second volume of the book Singularities of Differentiable Maps by V I Arnold A N Varchenko and S M Gusein Zade The first volume subtitled Classification of critical points caustics and wave fronts was published by Moscow Nauka in 1982 It will be referred to in this text simply as Volume 1 Whilst the first volume contained the zoology of differentiable maps that is it was devoted to a description of what where and how sin
