**By Kyung Bai Lee, Frank Raymond : Seifert Fiberings (Mathematical Surveys and Monographs)** Seifert Fiberings (Mathematical Surveys and Monographs):

Seifert fiberings extend the notion of fiber bundle mappings by allowing some of the fibers to be singular Away from

the singular fibers the fibering is an ordinary bundle with fiber a fixed homogeneous space The singular fibers are quotients of this homogeneous space by distinguished groups of homeomorphisms These fiberings are ubiquitous and important in mathematics This book describes in a unified way their structure how they arise and how they are classified a
