By Alex H. Barnett, Carolyn S. Gordon, Peter A. Perry, Alejandro Uribe : Spectral Geometry (Proceedings of Symposia in Pure Mathematics) various number theorists home pagesdepartmental listings complete listing a b c d e f g q q a href=quot;listhtmlhquot;gt;h i j k l m earlier to establishment of the department of research in mathematics by the university of madras it encouraged young men of promise to undertake research studies in Spectral Geometry (Proceedings of Symposia in Pure Mathematics):

This volume contains the proceedings of the International Conference on Spectral Geometry held July 19 23 2010 at Dartmouth College Dartmouth New Hampshire Eigenvalue problems involving the Laplace operator on manifolds have proven to be a consistently fertile area of geometric analysis with deep connections to number theory physics and applied mathematics Key questions include the measures to which eigenfunctions of the Laplacian on a Riemannian manifold conden
