By William H., III Meeks, Joaquin Perez : A Survey on Classical Minimal Surface Theory (University Lecture Series) the most prominent twentieth century mathematician charles e schmidt college of science course descriptions biological sciences chemistry and biochemistry complex systems and brain sciences A Survey on Classical Minimal Surface Theory (University Lecture Series):

Meeks and P eacute rez present a survey of recent spectacular successes in classical minimal surface theory The classification of minimal planar domains in three dimensional Euclidean space provides the focus of the account The proof of the classification depends on the work of many currently active leading mathematicians thus making contact with much of the most important results in the field Through the telling of the story of the classification of minimal planar d
