By R. H. Bing : The Geometric Topology of 3-Manifolds (Colloquium Publications) research trends on set theoretic and geometric topology and their cooperation with various branches location rm 111 period 2017 06 12 2017 06 14 3 publications books or sections in books 1 with marsden relativistic elasticity in marsden hughes mathematical foundations of continuum mechanics 298 314 The Geometric Topology of 3-Manifolds (Colloquium Publications):

This book belongs in both graduate and undergraduate libraries as a useful reference for students and researchers in topology. It is directed toward mathematicians interested in geometry who have had at least a beginning course in topology. It should provide the reader with a better understanding of the physical properties of Euclidean 3 space, the space in which we presume we live. The reader should learn of some unsolved problems that continue to baffle researchers. The
