By *WORKSHOP ON SUPERINTEGRABILITY IN CLASSICAL AND QUANTUM SYSTEMS, WORKSHOP ON SUPERINTEGRABILITY IN CLASSI*, P. Tempesta : *Superintegrability in Classical and Quantum Systems (Crm Proceedings and Lecture Notes)* Superintegrability in Classical and Quantum Systems (Crm

Proceedings and Lecture Notes):

Superintegrable systems are integrable systems classical and quantum that have more integrals of motion than degrees of freedom Such systems have many interesting properties This proceedings volume grew out of the Workshop on Superintegrability in Classical and Quantum Systems organized by the Centre de Recherches Mathematiques in Montreal Quebec The meeting brought together scientists working in the area of finite dimensional integrable systems to discuss new dev
