By Matilde Marcolli : Arithmetic Noncommutative Geometry (University Lecture Series) a list of number theory books the number theory web which houses this web page contains links to pre 1996 books faculty research interests lszl babai i work in the fields of theoretical computer science and discrete mathematics; more specifically in computational Arithmetic Noncommutative Geometry (University Lecture Series):

Arithmetic noncommutative geometry uses ideas and tools from noncommutative geometry to address questions in a

new way and to reinterpret results and constructions from number theory and arithmetic algebraic geometry This general philosophy is applied to the geometry and arithmetic of modular curves and to the fibers at Archimedean places of arithmetic surfaces and varieties Noncommutative geometry can be expected to say something about topics of arithmetic interest be
