By Yuriy I. Dimitrienko : Tensor Analysis and Nonlinear Tensor Functions the online version of journal of mathematical analysis and applications at sciencedirect the worlds leading platform for high quality peer reviewed full text in mathematics a linear map also called a linear mapping linear transformation or in some contexts linear function

is a mapping $v \rightarrow w$ between two modules Tensor Analysis and Nonlinear Tensor Functions:

Tensor Analysis and Nonlinear Tensor Functions embraces the basic fields of tensor calculus tensor algebra tensor analysis tensor description of curves and surfaces tensor integral calculus the basis of tensor calculus in Riemannian spaces and affinely connected spaces which are used in mechanics and electrodynamics of continua crystallophysics quantum chemistry etc The book suggests a new approach to definition of a tensor in space
