**By Krishan L. Duggal, Bayram Sahin : Differential Geometry of Lightlike Submanifolds (Frontiers in Mathematics)** Differential Geometry of Lightlike Submanifolds (Frontiers in Mathematics):

This book presents research on the latest developments in differential geometry of lightlike degenerate subspaces The

main focus is on hypersurfaces and a variety of submanifolds of indefinite K auml hlerian Sasakian and quaternion K auml hler manifolds From the reviews ldquo It provides a reasonably self contained and very comprehensive account of all aspects of the subject hellip The book contains more than 400 references to the literature as well as a wealth of applications to physics general relati
