By Helmut Strade : Simple Lie Algebras over Fields of Positive Characteristic: II. Classifying the Absolute Toral Rank Two Case (de Gruyter Expositions in Mathematics)

Simple Lie Algebras over Fields of Positive Characteristic: II. Classifying the Absolute Toral Rank Two Case (de Gruyter Expositions in Mathematics):

This is the second volume by the author presenting the state of the art of the structure and classification of Lie algebras over fields of positive characteristic an important topic in algebra The contents is leading to the forefront of current research in this field Leading to the forefront of current research in an important topic of algebra About the Author Helmut Strade University of Hamburg Germany
