**By Simone Diverio, Erwan Rousseau : Hyperbolicity of Projective Hypersurfaces (IMPA Monographs)**
Hyperbolicity of Projective Hypersurfaces (IMPA Monographs):

This book presents recent advances on Kobayashi hyperbolicity in complex geometry especially in connection with projective hypersurfaces This is a very active field not least because of the fascinating relations with complex

algebraic and arithmetic geometry Foundational works of Serge Lang and Paul A Vojta among others resulted in precise conjectures regarding the interplay of these research fields e g existence of Zariski dense entire curves should correspo
