By Friedmar Schulz: Regularity Theory for Quasilinear Elliptic Systems and Monge - Ampere Equations in Two Dimensions (Lecture Notes in Mathematics) Regularity Theory for Quasilinear Elliptic Systems and Monge -

Ampere Equations in Two Dimensions (Lecture Notes in Mathematics):

These lecture notes have been written as an introduction to the characteristic theory for two dimensional Monge Amp egrave re equations a theory largely developed by H Lewy and E Heinz which has never been presented in book form An exposition of the Heinz Lewy theory requires auxiliary material which can be found in various monographs but which is presented here in part because the focus is different and also because these notes have an introductory character Sel
