From Springer : Dynamical Systems VII: Integrable Systems Nonholonomic Dynamical Systems (Encyclopaedia of Mathematical Sciences) Dynamical Systems VII: Integrable Systems Nonholonomic Dynamical

Systems (Encyclopaedia of Mathematical Sciences):

A collection of five surveys on dynamical systems indispensable for graduate students and researchers in mathematics and theoretical physics Written in the modern language of differential geometry the book covers all the new differential geometric and Lie algebraic methods currently used in the theory of integrable systems Language Notes Text English translation Original Language Russian
