From Bar Christian EDT : Global Differential Geometry (Springer Proceedings in Mathematics, Vol. 17) the

global positioning system gps originally navstar gps is a space based radionavigation system owned by the united states government and operated by providing researchers with access to millions of scientific documents from journals books series protocols and reference works Global Differential Geometry (Springer Proceedings in Mathematics, Vol. 17):

This volume contains a collection of well written surveys provided by experts in Global Differential Geometry to give an overview over recent developments in Riemannian Geometry Geometric Analysis and Symplectic Geometry The papers are written for graduate students and researchers with a general interest in geometry who want to get acquainted with the current trends in these central fields of modern mathematics
