By Scot Adams : Dynamics on Lorentz Manifolds current issue volume 54 number 4 ojm home contents on mathscinet volume 54 number 1 number 2 number 3 number 4 volume 53 number 1 chaosclassical and quantum i deterministic chaos predrag cvitanovic roberto artuso ronnie mainieri gregor tanner gabor vattay Dynamics on Lorentz Manifolds:

Within the general framework of the dynamics of large groups on geometric spaces the focus is on the types of groups that can act in complicated ways on Lorentz manifolds and on the structure of the resulting manifolds and actions This particular area of dynamics is an active one and not all the results are in their final form However at this point a great deal can be said about the particular Lie groups that come up in this context It is impressive
