By Maria Falcitelli, Anna Maria Pastore, Stere Ianus : Riemannian Submersions and Related Topics
Riemannian Submersions and Related Topics:

This book provides the first ever systematic introduction to the theory of Riemannian submersions which was initiated

by Barrett O Neill and Alfred Gray less than four decades ago The authors focus their attention on classification theorems when the total space and the fibres have nice geometric properties Particular emphasis is placed on the interrelation with almost Hermitian almost contact and quaternionic geometry Examples clarifying and motivating the theory ar
