By Proceedings of the International Workshop in Honor of S Maeda's 60th Birthday : Differential Geometry of Submanifolds and Its Related Topics the online version of journal of mathematical analysis and applications at sciencedirect the worlds leading platform for high quality peer reviewed full text misha verbitsky a homepage my papers in arxivorg; publications a list of papers research overview pdf curriculum vitae; laboratory of algebraic

geometry Differential Geometry of Submanifolds and Its Related Topics:

This volume is a compilation of papers presented at the conference on differential geometry in particular minimal surfaces real hypersurfaces of a non flat complex space form submanifolds of symmetric spaces and curve theory It also contains new results or brief surveys in these areas This volume provides fundamental knowledge to readers such as differential geometers who are interested in the theory of real hypersurfaces in a non flat complex space form
