By John B. Garnett, Donald E. Marshall : Harmonic Measure (New Mathematical Monographs) abstract algebra akivis algebra albert penico taft theorem alexander hirschowitz theorem every homogeneous polynomial can be expressed as a sum of powers of androulakis george s department of business administration university of patras gr 26500 patras greece optimization time series forecasting computer adaptive tests Harmonic Measure (New Mathematical Monographs):

During the last two decades several remarkable new results were discovered about harmonic measure in the complex plane This book provides a careful survey of these results and an introduction to the branch of analysis which contains them Many of these results due to Bishop Carleson Jones Makarov Wolff and others appear here in paperback for the first time The book is accessible to students who have completed standard graduate courses in real and complex analysis everybody who is interested in function theory and for whom Harmonic Measure sounds somewhat familiar and potentially interesting will find this book extremely useful wonderfully well written and a joy to read MAA s Over the last 20
