By Krishan L. Duggal : Null Curves and Hypersurfaces of Semi-riemannian Manifolds the following papers have been accepted for publication but have not yet undergone editing or formatting a wormhole is a solution of the einstein field equations having a non trivial structure linking separate points in spacetime much like a tunnel with two ends each Null Curves and Hypersurfaces of Semi-riemannian Manifolds:

This is a first textbook that is entirely focused on the up to date developments of null curves with their applications to science and engineering It fills an important gap in a second level course in differential geometry as well as being essential for a core undergraduate course on Riemannian curves and surfaces The sequence of chapters is arranged to provide in depth understanding of a chapter and stimulate further interest in the next The book comprises a large v
