From Wspc : Differential Geometry - Proceedings Of The Viii International Colloquium we would like to show you a description here but the site wont allow us international journal of engineering research and applications ijera is an open access online peer reviewed international journal that publishes research Differential Geometry - Proceedings

This volume contains research and expository papers on recent advances in foliations and Riemannian geometry. Some of the topics covered in this volume include topology, geometry, dynamics, and analysis of foliations, curvature, submanifold theory, Lie groups, and harmonic maps. Among the contributions, readers may find an extensive survey on characteristic classes of Riemannian foliations, offering also new results, an article showing the uniform simplicity of certain diffeomorphisms. From the Inside Flap: This volume contains research and expository papers on recent advances in foliations and Riemannian geometry. Some of the topics covered in this volume include topology, geometry, dynamics, and analysis of foliations, curvature, submanifold.
