From Wspc : Trends In Differential Geometry, Complex Analysis And Mathematical Physics - Proceedings Of 9Th International Workshop On Complex Structures, Integrability And Vector Fields Trends In Differential Geometry, Complex Analysis And Mathematical Physics - Proceedings Of 9Th International Workshop On Complex Structures, Integrability And Vector Fields:

This book contains the contributions by the participants in the nine of a series of workshops Throughout the series of workshops the contributors are consistently aiming at higher achievements of studies of the current topics in complex analysis differential geometry and mathematical physics and further in any intermediate areas with expectation of discovery of new research directions Concerning the present one it is worthwhile to mention that in addition to the n
