Nonabelian Multiplicative Integration On Surfaces:

This work contains many illustrations to clarify the geometric construction Many explicit examples are also given Zentralblatt Math Nonabelian multiplicative integration on curves is a classical theory This volume is about the 2 dimensional case which is much more difficult In our construction the setup is a Lie crossed module there is a Lie group H together with an action on it by another Lie group G The multiplicative integral is an element of H and it is th From the Inside Flap Nonabelian multiplicative integration on curves is a classical theory This volume is about the 2 dimensional case which is much more difficult In our construction the setup is a Lie crossed module there is a Lie gro
